

AGRO POWER KRAFTBANDS

OPTIBELT AGRO POWER kraftbands consist of wrapped V-belts which are connected via an abrasion-proof cover plate.

Preferably, this compact drive element is used when it comes to extreme loads, high axial distances, vertical shafts and coupling drives.

The abrasion-proof cover fabric, the high-quality rubber component and the special low-stretch tension cord allow for high dynamic loads and low-maintenance drives.

Characteristics:

- operationally reliable
- powerful
- optimum running characteristics
- varied product range
- environmentally friendly

Profiles:

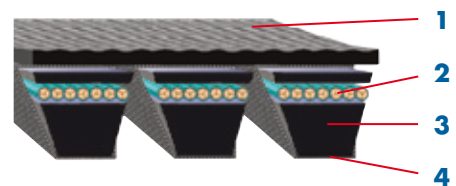

3V/9J; 5V/15J; 8V/25J; SPB; SPC;
A/HA; B/HB; C/HC; D/HD

Dimensions:

1 200 to 12 000 mm
Standard product range
Further sizes on request.

Application areas:

Combine harvesters, mowers, crop choppers

- 1 Rubber coating
- 2 Tension cord
- 3 Rubber core
- 4 Impregnated cover fabric
